

I oppose the reductions of regulations on media consolidation. The media is already too concentrated amongst these gigantic corporations, and if this measure passes, I feel like we will have even less diversity of news. The airways are owned by the citizens of this company, not the media elite, and thus it should reflect the vast diverse views of the great country. I live in Texas, and I know for sure that if the media is nationalized and homogenized, we will not be happy.
